**R4.0**

## INDUSTRY COLLABORATION REPORT: **YEAR 2021**

Administered by:

Industry Engagement Division, RIMC  
*in collaboration with Student Affairs  
Department & Faculties*  
SEGi University Kota Damansara

Ref. No: SEGi/2021/IPD/RIMC/REPV1.2

## **WELCOME TO INDUSTRY PARTNERS**

We invite companies to collaborate with us as educators to ensure our education prepares students for the current business environment and meets the needs of employers. Companies can get involved through our research partnership program, student internship program and employment program. This enriches the student and academics experience by bringing the “real world” into their learning environment. In turn, companies are enriched through ideas and solutions to meet their current challenges through our industrial research and through access to a talent pool. Companies can get involved through providing internships or work placements to our students or as living case studies.

SEGi University's extensive industry networks create opportunities for our students and researchers, and the communities we serve. Partnerships enhance the student experience and graduate outcomes, contributing to the demand for our educational services and underpinning our sustainability. By seeking to understand industry and community requirements, we can provide relevant, quality teaching and research that meets the needs of our partners, local industry and community and beyond.

**The stakes are high for academic and industry collaboration in Higher Education. At SEGi University, we highly value the ideal of industry collaboration. Our strategic Industrial collaboration framework encompasses a unique ecosystem which provides maximum benefits to the Industries, Students and Academics.**

# INDUSTRY TO ENTERPRISE MISSION

To enrich and integrate our learning environment through a holistic relationships with business, industry and government to produce the best Academic, Research and Commercialisation values

## Our Effective Culture & Strength

-  We have significantly increased the number of broad and deep long-term relationships across industry and government
-  Our academy understands how and when to work with business development and other professional support teams to develop and sustain external relationships
-  We have students from more than 80 countries employed globally with a global reputation as a thought and practice leader in research, innovation and entrepreneurship

## Our Activation Initiatives fall under three categories

- **Business, Industry and Government Engagement Infrastructure**

A range of initiatives and support structures facilitating academy/external interaction, stimulating engagement and reducing barriers to collaboration.

- **Enterprise Culture and Capability**

A range of initiatives focusing on inspiration, capability building, settings and incentives will help align the interests of individual staff and students with the aspirations of the University and create an enterprise culture that manifests in desired behaviours.

- **Reputation Enhancement**

Our reputation is underpinned by research and teaching excellence, the highest ethical and integrity standards, and a commitment to the public good. Collaborations with business, industry and government consistent with these principles will enhance the University's visibility, global esteem and reputation for study and research.

-  We have a strong pipeline of intellectual property (IP) assets, experts and industrial grants
-  We are on a sustainable trajectory to achieve, or exceed, our target based on our University Blueprint.
-  We are recognised for our outcome delivery approach and a strong integration of academic – student integration towards industry-based learning
